

Update 26.03.2020

Can we help?

We have 10 Courtesy Cars that are available to help delivering food, helping the vulnerable, helping key workers get to work & so on. We have a limited number of drivers as our transport department is greatly reduced, but if you need our help please call **020 8680 8888** or [email us here](#)

Also, as main dealers are closed, we can help with ADAS & car resets for all sites and shops (VAG only) as even though we are on a skeleton level of staff we're here to help

Parts suppliers are prioritising key workers & NHS. And we are still plugged in to the main parts suppliers. It's so important that someone is there to keep mission critical vehicles on the road and in a good state of repair

We're still here for you and doing our very best. Please stay safe and we're thinking about all of you...

The Fleetline Team
